

V-Wheel

DSI™ Waterjet Portioner

These precision stainless-steel wheels feature bearings to withstand high-moisture washdown environments and are fully compatible as a drop-in replacement for existing DSI™ Waterjet Portioning Systems.

Greenline's V-Wheels offer a readily available, reliable, cost-effective alternative for customers.

Why Choose a Greenline V-Wheel?

Validated across multiple cutting combinations

Wear life proven to match or exceed OEM

FDA Compliant

Ready to ship from our Gainesville, Georgia location

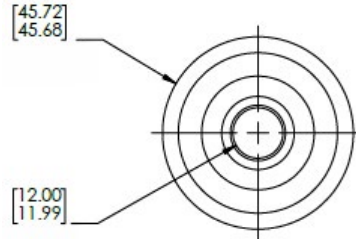

About Greenline Parts

Since 1964, Greenline has manufactured and delivered premium-quality parts and services that **minimize downtime**, **increase productivity**, and **maximize operational efficiency**. Our mission is to develop strong partnerships with our customers and support them in reducing their maintenance costs without sacrificing the quality they depend on.
